Application: Server Room Monitoring

Monitoring:
• Temperature
• Humidity
• Fire & Smoke Detection System
• Water Detection System
• Precision Air-Conditioning System
• Door Access System
• Electricity
• UPS

Control also can be done with equipment that allow us to input signal

Application: Water Reticulation System Monitoring

Monitoring:
• In Flow Rate
• Out Flow Rate
• Water Pump Functionality
• Water Level
• Local Pump Control

Control also can be done with equipment that allow us to input signal

Application: Fire Suppression System Monitoring

Monitoring:
• Zone Fault
• Zone Isolate
• Battery Fail
• Bell Line Open
• Gas Panel
• Alarm Panel

Control also can be done with equipment that allow us to input signal

Application: Air-Conditioning Monitoring

Monitoring:
• Vibration monitoring
• Power trending
• Energy monitoring

Control also can be done with equipment that allow us to input signal
